

CoE PILLARS (values), draft

Integrity

- Participate only in honest endeavors
- Uphold the standards and principles of the engineering profession
- Engage in and promote fairness
- Embody ethical and professional responsibilities

Purpose

- Take pride in and uphold obligation to the profession
- Employ critical thinking skills to foster transformative ideas
- Commit to teams that promote leadership, inclusivity, goals and efficiency.

Humanity

- Cultivate Equitable and Inclusive environments
- Encourage Mutual Respect and Tolerance
- Embrace an international perspective

Society

- Serve humankind by respectfully utilizing Earth's treasured wealth
- Contribute my expertise to the benefit of society
- Design innovative, sustainable solutions that consider health, safety, welfare, cultural, global, social, economic, and environmental factors

to Assistant Dean Garcia: E200b or
tgarcia@sdsu.edu

Mission: We are dedicated to innovative education, research, and dissemination of knowledge. We instill critical thinking in our graduates to: recognize human and societal needs; design innovative, sustainable engineering solutions; embrace an international perspective; create value through entrepreneurial efforts.

Diversity, Equity, and Inclusion: As part of a Hispanic-serving institution residing on Kumeyaay land, we are committed to creating a safe, equitable and an inclusive working and learning environment that promotes mutual respect for each and every member of the college.

INTEGRITY

- Participate only in honest endeavors
- Uphold the standards and principles of the engineering profession
- Engage in and promote fairness
- Embody ethical and professional responsibilities

PURPOSE

- Take pride in and uphold obligation to the profession
- Employ critical thinking skills to foster transformative ideas
- Commit to teams that promote leadership, inclusivity, goals and efficiency.

HUMANITY

- Cultivate Equitable and Inclusive environments
- Encourage Mutual Respect and Tolerance
- Embrace an international perspective

SOCIETY

- Serve humankind by respectfully utilizing Earth's treasured wealth
- Contribute my expertise to the benefit of society
- Design innovative, sustainable solutions that consider health, safety, welfare, cultural, global, social, economic, and environmental factors

Vision: The SDSU College of Engineering educates a diverse group of students to become engineering innovators and contribute to the technical knowledge of society at large.
